

18/03/2019

To whom it may concern,

We have entrusted The Cooling Co. (Gauteng branch) to design and install new systems in our Dispatch (2016), Blast chiller(2016), Docking bay(2016) and High care facility(2018), the latter being a power saving multi-plex system installed by The Cooling Co. (Gauteng branch) and supplied by Metraclark since we have some energy constraints. These systems have met our requirements and our retail customers requirements.

The Cooling Co. (Gauteng branch) have been servicing and maintaining our facility since 2016, and have had an excellent track record.

We have found them to be diligent, on time and always willing to assist.

I would highly recommend them. I can be contacted on 082 560 4449.

Jacqueline Finnemore
