

13 March 2019

To whom it may concern:

I wish to confirm that The Cooling Co. (Gauteng branch) designed and installed a multi compressor systems and just completed the installation.

They remained on schedule despite the building not being ready on time, electricity supply being delivered late and various other complications.

The quality of materials and workmanship was found to be of high standard.

Variance orders for additional work were neatly agreed to prior to execution.

The Cooling Co. Gauteng completed the original scope within the original time frame and budget.

We have found them to be highly professional and efficient.

I would recommend them to any company.

Should you require any further information please feel free to contact me.

Yours faithfully
Best Regard,

SW de Beer
